### MAPMS Technical Poster Contest *2019 Annual Meeting –Chicago, IL*

The Midwest Aquatic Plant Management Society (MAPMS) will be holding a technical poster contest at the 2017 Annual Conference. The Conference will be at The Palmer House in downtown Chicago, IL on February 25 through February 28, 2019.

The poster session will be held during the main conference, and should be thought of as an extended hallway-discussion with a visual aid. We welcome posters from attendees on research in any aspect of Aquatic Plant Management; and believe presenting posters relevant to the technical and practical aspects of APM is an effective method to share research and experience.

Cash awards will be given for the top three posters: 1st place \$300, 2nd place \$200 and 3rd place \$100.

You can register for the contest by submitting an abstract and registration form enclosed in this newsletter or it can be found at the website. Please specify “poster contest” on both forms. Space for posters will be limited by the order in which abstracts were received.

Please visit the Society website at [www.mapms.org](http://www.mapms.org) to learn more about the annual meeting and the Society. For more information, please contact:
