Position Summary

Marine Biochemists is seeking Seasonal Spray Crew Members. Crew members will be exposed to many different types of aquatic ecosystems. Marine Biochemists will be providing additional opportunities for our seasonal employees to expand their experience in other areas of study that have relevance to our company's services. For example, water quality study projects.

Persons seeking employment should have the following qualifications, background, etc.:

- Biology, Science or Environmental educational background and interest
- Professional appearance and attitude
- Hard working
- Dependable and punctual
- Able to work both unsupervised and under the direction of others
- Good driving record
- Mechanical aptitude desirable, but not required.

Work Schedule and Rate of Pay

- Pay will be based on a per hour rate: \$12.00 with overtime ("time and a half") for any time over forty hours per week.
- Willing to work up to ten-hour days up to five days a week
- Employees working more than one season can earn higher wages and gain supervisory experience.
- Overtime will most likely average five to ten hours a week.
- Internship credit may be earned for school
- Be available for work for the period of approximately May 15 (or earlier), 2021 to August 31, 2021 (some exceptions can be made if necessary due to school conflicts).
- Full-time opportunities are limited but have been historically filled by returning seasonal employees.

Other Duties

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this position. Duties, responsibilities, and activities may change at any time with or without notice.

SePRO Corporation requires all employees to successfully pass a pre-employment drug screen and background check.
